

Introduction - The 2012 Apocalypse

The 2012 Apocalypse is predicted by an intersection of Religions, Science, and Prophecies. Many Great Prophets, Religious Scriptures, and Scientific evidence point to a possible apocalyptic event happening in the year 2012.

We will explore the 2012 Apocalypse theories and predictions of who or what group may be behind the inner workings of The war to end all wars? What acts of nature may cause the apocalypse 2012? What are the warning signs?

And...our interpretation of Great Seers' writings and words. We will use information from; Nostradamus, The Bible, The Mayan Civilization, The Many Books written on the topic of 2012.

Who or what will cause the 2012 Apocalypse? Super Volcanos? Pestilence and Disease? Asteroids? Comets? Antichrist? Global Warming? Nuclear War?

Friday February 18, 2011 10:16AM

THE MAYAN CALENDAR ENDS December 21, 2012

The 2012 Apocalypse - The Mayan Calendar and Time

The Mayans viewed 'time' and 'dates' as a **meshing spiritual cycles**. The **Mayan calendar was sacred** and religious, each day had it's own patron spirit.

The Mayan grand cycle of evolution will culminate on December 21, 2012 AD. The 2012 Apocalypse.

This time now has many names "**The Time of Trial on Earth,**" "**Judgement Day,**" "**The Time of Great Purification,**" "**The End of this Creation,**" "**The Quickening,**" "**The End of Time as We Know It,**" "**The Shift of the Ages,**" "**The Apocalypse**" and "**Armageddon**".

It is foretold that the completion of the Mayan Calendar brings regeneration of Earth, offering an awakening to all with open hearts and minds. The [Mayans](#), [Hopis](#), [Egyptians](#), [Kabbalists](#), [Essenes](#), [Qero elders](#) of Peru, [Navajo](#), [Cherokee](#), [Apache](#), [Iroquois confederacy](#), [Dogon Tribe](#), and [Aborigines](#) all believe in an ending to this **Great 2012 Apocalyptic Cycle**.

Full text can be found at <http://2012apocalypse.net>

As keen stargazers, the ancient Maya were familiar with astrological cycle we call the **Precession of the Equinoxes**. This is close to a **26,000 year cycle** in which Earth passes through each of the **12 signs of the zodiac** for 2000-2152 years each. Each of these astrological ages represents one month of the Cosmic Year.

The Mayans were known worldwide for their architectural, artistic, mathematical and scientific achievements. With great attention to detail they constructed **stone monuments and pyramids** with precise computations. Built with purpose, these dates were left to ensure that future generations would be alerted to the end point of this great 26,000 year cycle - The 2012 Apocalypse.

A cycle which corresponds also to a **26,000 year relationship of our Sun orbiting [Alcyone](#)**, the central star of the **[7 Sisters Pleiades constellation](#)**. According to the Maya, the "future" which lies beyond this end date is literally **a new world age - a new creation - an Apocalypse**.

The Mayans believed that December 21, 2012 AD is the culmination of a series of events over time that leads to towards an the ultimate spiritual awakening of the world (The 2012 Apocalypse). They believe the changes are underway and will continue steadily accelerating as we head towards this date.

Sunspot Cycles; Adrian Gilbert and Maurice Cotterell, in their book *The Mayan Prophecies*, say that the end of the Great Cycle is the culmination of a series of **long-term sunspot cycles which will flip the sun's magnetic field**, causing earthquakes and flooding on earth and an apocalypse in the year 2012.

The Mayan King Pacal Voltan was known for his prophecies and was known for his knowledge of numbers. Pacal Voltan speaks about the end of the world on **December 21, 2012, a year which many believe is the year of the apocalypse**.

Part of the 2012 mystique stems from the **stars**:

On the winter solstice in 2012, **the sun will be aligned with the center of the [Milky Way](#)** for the first time in about 26,000 years. This means that "whatever energy typically streams to Earth from the center of the Milky Way will indeed be disrupted on **12/21/12 at 11:11 p.m.** Universal Time," according to [Lawrence Joseph](#).

Others believe gravitational, magnetic, and solar energies will go awry when this **galactic and planetary alignment** occurs, causing an array of natural disasters, including the weakening of our magnetic field, allowing **solar radiation** to penetrate our atmosphere and **the 2012 Apocalypse**.

Natural Disasters

Predicted in the 2012 Apocalypse

Super-Volcanos

A supervolcano or super volcanic eruption is a volcanic eruption which is of such great magnitude greater that it's eruption can cause **long-lasting change to weather**, like the triggering of an ice age or '**volcanic winter**'. A magnitude large enough to threaten the extinction of species, and cover huge areas of the earth with lava and ash.

Full text can be found at <http://2012apocalypse.net>

In addition to the apocalyptic changes in temperatures around the world, a super-volcano can **blast billions and billions of metric tons of sulphuric acid** into the atmosphere. This causes acid rain to fall around the world.

The Four known super-volcanoes capable of Apocalyptic eruptions are:

- 1) **Lake Taupo**, North Island, New Zealand - 26,500 years ago
- 2) **Lake Toba**, Sumatra, Indonesia - ~75,000 years ago
- 3) **Yellowstone Caldera**, Wyoming, United States - ~640,000 years ago, ~1.3 million years ago, ~2.2 million years ago
- 4) **La Garita Caldera**, Colorado, United States - Largest eruption known to man ~27.8 million years ago

Of particular interest is Lake Toba, where magma build up has risen land mass over **3 miles higher** than it's last eruption. Is this the 2012 Apocalypse?

Asteroid or Comet

The energy of an impact from [433 eros](#) would be equivalent to **100 million megatons of TNT**, 6 million times more energetic than the 1980 Mount St. Helens volcanic eruption.

The impact would eject rock from several kilometers beneath the surface of the Earth and carved out a bowl-shaped crater nearly **100 km in diameter**. In addition, the shock of the impact would produce **magnitude 10 earthquakes**, which were greater than the magnitude of any we have ever measured in modern times. Other effects such as a **tsunami approximately 50 to 100 meters high** should be expected.

Near the impact crater the debris is tens to hundreds of meters thick, while it's plume reaches as far away as 2000 km. Additional material was lofted in an expanding, vapor-rich plume that included **gas from the vaporized asteroid** or comet. This plume would rise far above the Earth's atmosphere, enveloping it, and eventually depositing a thin layer of debris **around the entire world**. The darkness as predicted in the book of revelation.

Terrestrial and Solar Pole Reversal

Polar reversal is process by which the North and South pole reverses position. According to a new study, when polar reversal is in early stage (which is now), the tectonic plates are heavily affected by the **changing electro magnetic fields** and the result is change in flux characteristics affecting the gravity.

During polar reversal the equilibrium between electromagnetic forces and the gravity of the earth as well as the other parts of the solar system and the galaxy is disturbed. The net effect is unpredictable **erratic behavior of the continental and oceanic plates**.

It is evident now that increasing number and intensities in hurricanes, volcanoes and earthquakes all over the world are caused by the electromagnetic influence of the terrestrial polar reversal.

Full text can be found at <http://2012apocalypse.net>

In the present decade the earth has experienced the largest three earthquakes in over two hundred years. The under water volcanoes and **earthquakes have gone up 88%** over the last three years. The continental earthquakes have gone up by 62% during the same time frame. The rate of increase of earthquakes and volcanoes against time is staggering. Some scientists believe the **ongoing polar reversal is accelerating** and will eventually have reverse polarity in North and South pole. According to the simulation model, the earth's inner core and outer core is going through some serious disturbances causing increased frequency and strength of earthquakes and volcanoes as we approach the year 2012. The 2012 apocalypse is near.

A computer model monitoring the recent seismic disturbances – earthquakes and volcanoes show extreme disturbance in the outer and inner core of the earth. The interaction of the inner core and the rest of the earth cause the electromagnetic properties of the earth.

In our modern age we have not experienced a simultaneous solar and terrestrial polar reversal. Between now and 2012, the sun will experience a polar reversal and the earth will also experience a polar reversal. This combination of events will cause disturbances in the earth's crust and tectonic plates **resulting in severe volcanoes and earthquakes.**

In this decade, three most violent earthquakes happened in the last 150 years. This is accompanied by innumerable small quakes, under water volcanoes, mudslides and more. Simply put, the **tectonic plates are slowly going out of equilibrium** and are showing chaotic effects.

The polar reversal also causes shift in tectonic forces to accelerate. The pressures built up for many years are some what released through violent outbreaks with earthquakes and Tsunamis.

Pestilence and Disease
Global Warming
Floods
Fires

▪ **NASA** landed a satellite on **Eros** the asteroid and have come to the conclusion that Eros will be near earth object in Earth's path around **January of 2012**. When asked why they landed such a device on Eros they replied, " They wanted to see if they could in case in the future that they had to plant explosives on an asteroid to try to prevent a collision"

Eros is an asteroid 26 miles in diameter. So immense that the explosives wouldn't work to stop the bulk of the 26 mile in diameter asteroid from hitting our world. If it does it will be planet killer, The Apocalypse of 2012.

The direct impact of Eros upon the earth's surface would destroy all mankind and animals, foliage. The end of times, the Apocalypse, or Doomsday.

NASA also predicts the sun will reverse it's magnetic poles in 2012 and end it's 11 year **sunspot cycle** .

2012 Apocalypse

Calendar of Events

2012 (MMXII) will be a leap year starting on Sunday of the Gregorian calendar

This new apocalypse date coincides with the end of the ancient Mayan long count calendar. The Mayan calendar, which spans more than 5,000 years, **comes to an end on December 21, 2012.**

The significance of the end of the Mayan calendar has been the subject of an increasing number of books in the last several months.

It has been featured on several programs on the History Channel. In general, there is a difference of opinion regarding the Mayan belief of **what happens on 12/21/2012. Some think it is the 2012 apocalypse, the destruction of the planet Earth and human life.** Others believe that we are in for an unprecedented spiritual awakening. Some predict a global financial meltdown. To others, an asteroid is the harbinger of doom.

In addition, books on the subject arrive every month at local bookstores. Journalist Lawrence Joseph forecasts widespread catastrophe in *Apocalypse 2012: A Scientific Investigation Into Civilization's End*. Spiritual healer Andrew Smith predicts a restoration of a "true balance between Divine Feminine and Masculine" in *The Revolution of 2012: Vol. 1, The Preparation*.

Daniel Pinchbeck, in his book, *2012: The Return of Quetzalcoatl*, anticipates a "change in the nature of consciousness," assisted by indigenous insights and psychedelic drug use.

The end of the Mayan calendar coincides with a **galactic alignment, in which the Sun will align with the center of the Milky Way galaxy.**

It is said that this rare event occurs **once every 26,000 years** and some predict it will be the **2012 apocalypse**, potentially catastrophic consequences. The theory goes that on the day of the winter solstice in 2012, the Sun will be aligned with the center of the Milky Way. This alignment could mean that energy which typically streams to Earth from the center of the Milky Way will be disrupted on 12/21/12 at 11:11 p.m. Universal Time.

This galactic alignment has the **potential to create a shift in the Earth's poles**, initiating the **2012 apocalypse**, which would involve a series of disastrous environmental events. There is also a good possibility that the effects will **alter the magnetic polarity of the Sun.**

In combination with gravitational forces from the simultaneous alignment of other planets, this result might **cause massive solar flares, and could even move the axis of the Earth.** The **2012 apocalypse?**

Predicted and scheduled events of 2012.

Full text can be found at <http://2012apocalypse.net>

January

January 1 — Poland, Bulgaria, and Latvia are set to adopt the Euro.

January 15 — Presidential elections in Finland

January 31 — 433 Eros, the second-largest Near Earth Object on record will pass Earth.

- Is this the Asteriod of the 2012 apocalypse?

February

February 5 — Super Bowl XLVI will be played at Lucas Oil Field in Indianapolis, Indiana.

February 6 — Queen Elizabeth II will celebrate her Diamond Jubilee. A series of festivities across the United Kingdom and Commonwealth of Nations will likely run throughout the year.

April

April 1 — The United States Census of 1940 is released to the public.

April 17 — The United States will cede wartime control of the military of the Republic of Korea after 50 years and dissolve the Combined Forces Command. Two distinct military commands (South Korea and the United States) will operate in Korea during wartime, rather than one unified command under the Combined Forces Command.

May

May 20 — Annular solar eclipse.

May - French Presidential election.

- A possible Islamic President of France? A sign of the 2012 apocalypse?

May - Irish general election is due to be held if the current government remains in office for a full term.

June

June 6 — Second and last solar transit of the planet Venus of this century. 6/6/2012

- Hmmm, 6/6/2012, Need I say more about the 2012 apocalypse symbolism?

July

July 1 — Presidential Elections in Mexico.

July 27 — Opening ceremony of the 2012 Summer Olympics begins in London.

August

August 12 — Closing ceremony of the 2012 Summer Olympics in London, United Kingdom, a Sunday.

October

October 19 — at 01:36 UTC, the **Earth will be home to 7 billion people**, according to the US Census Bureau.

November

November 6 — The United States Presidential, Senate, and House of Representatives elections.

November 6 — Puerto Rico general election

November 13 — Total solar eclipse.

November 16 - The launch of the Boeing BSS-702, a DirecTv Satellite

November 28 — Penumbral lunar eclipse

Full text can be found at <http://2012apocalypse.net>

December

December - Presidential elections in South Korea.

December 3 — **Jupiter oppositions.**

December 21 — Winter Solstice at 11:11 UTC.

December 21 — The Mesoamerican Long Count calendar, notably used by the Maya civilization among others of pre-Columbian Mesoamerica, completes its thirteenth b'ak'tun cycle since the calendar's starting point calendar. The Long Count b'ak'tun date of this starting point (13.0.0.0.0) is repeated, for the first time in a span of approximately 5,125 solar years. The significance of this period-ending to the pre-Columbian Maya may be preserved by an inscription (Tortuguero Monument 6) that records this date. **It is also to be found carved on the walls of the Temple of Inscriptions in Palenque, where it functions as a base date from which other dates are computed. However, it is conjectured that this represents in the Maya belief system a transition from the current Creation world into the next.**

December 23 — The alternative date for the completion of the thirteenth b'ak'tun cycle in the Maya calendar, using a version of the GMT-correlation based on a JDN of 584285 (a.k.a. the "astronomical" or "Lounsbury correlation"), which is supported by a smaller number of Mayanist researchers.

December 31 — Expiration of the Kyoto Protocol.

Conclusion

In conclusion, the Prophet/Prophecy interpretations are for each persons thought process to interpret. However, I feel there have been strong points made for an '**Evil Super Power**' to arise from the Middle-East, involving:

The King of Terror- King Mohammed VI, from Morrocco;

The King of Tyrus- Grand Ayatollah Sayyed Muhammad Hussein Fadl-Allah, Hezbollah's Spiritual Leader;

MABUS- Mahmoud ABBAS, Leader, PLO, Palestinian Authority

The Hezbollah - PLO - Greater Arabian alliance. An Evil Trinity. The Anti-Trinity.

Their rise to power comes from the ***King of the Mongols, Dr. A.Q. Khan***. He gives the Alliance the power of Nuclear Weapons. According to prophecy, the Alliance will try to seize power masked by a natural catastrophe. They will either use this catastrophe for a distraction and seize the opportunity to strike, or even more heinous, attack under the cover of charitable assistance to grief stricken nations.

The Ending:

After working on this site, The **2012 apocalypse** seems more believable than ever. Yes, there have been hundreds and thousands of these apocalyptic predictions over the centuries, but the intersection of all these diverse set of beliefs seems far beyond coincidental.

Although mankind will be on the brink of annihilation, as the **Evil Trinity** tries to break the Western and Judeo-Christian worlds back by leveling the great cities of **Rome/Vatican City, Jerusalem, and New York City**. This causes dis-belief, mass chaos, and a huge trough in the morale of the Judeo-Christian world.

After this great blow is shaken off, the **unlikely alliance of The U.S., Russia, and China**, having finally aligned in interests, group together to annihilate this unprecedented Evil at great expense.

The **2012 apocalypse** brings peace, **a higher consciousness**, and a spirituality that has not been seen since the beginning of time.
