

**Homework #7:**  
**Due Wednesday, March 21 in class or office hours**

**Midterm Corrections**

Part A: Multiple Choice Section (in groups)

For every question that your group answered incorrectly on the midterm

- 1) Explain why you chose the answer that you did in one complete sentence
- 2) Explain why the correct answer is correct in one complete sentence

Turn this in (one per group) before the end of class on Monday, March 19. You will have the lab period to work on it.

Part B: Short Answer Section (individually)

At home on your own, do the same for the short answer section of the exam. Use your notes, textbook and me during office hours on Wednesday to figure out the correct answer. Then, explain in your own words what you were missing for each question where you lost points and correct any mistakes.

Part C: Calculate Your Grade Worksheet (handed out in class, also available on website)
